A
DNA
RNA
Protein
CS = 0
CS > 0
CS = 0
Follows DNA ploidy
Mimics diploid DNA
Follows DNA ploidy
$CS_{\text{omic}} = \begin{cases} \text{DNA ratio} - \text{omic expr.} & \text{if DNA ratio} \geq 0 \\ \text{omic expr.} - \text{DNA ratio} & \text{if DNA ratio} < 0 \end{cases}$
